IDENTIFIERS \*North Carolina

## ABSTRACT

State Board of Education policy in North Carolina requires students who entered the ninth grade in 1994-95 and later to meet a higher competency standard in reading and mathematics. These students must receive an Achievement Level III or above on the eighth-grade reading and mathematics tests in order to receive a North Carolina high school diploma. The class of 1998 is the first required to meet this higher standard. Data from local education agencies used to compile this report represent a best effort to gather information on student achievement of this standard. During the 1996-97 school year, 61.9% of 8th graders, 73.3% of 9th graders, 84.3% of 10th graders, and 90.3% of 11th graders met the competency standard in reading and mathematics in North Carolina. There were wide disparities among subgroups, with, for example, 40.1% of black students meeting the standards in eighth grade, while 72.9% of white students met the standards. Local education agencies reported a variety of strategies to assist students in passing the competency requirement, and a list of the commonly used strategies is provided in this report. Sample questions for the North Carolina Competency Tests are included, as is a table of student performance by class and ethnicity by local education agency and region. An appendix discusses achievement levels and how to complete a report on student achievement. (Contains one table and nine graphs.) (SLD)

Public Schools of North Carolina  
State Board of Education - Phillip J. Kirk, Jr., Chairman  
Department of Public Instruction - Michael E. Ward, Superintendent  
Instructional and Accountability Services  
Division of Accountability Services

**Executive Summary**  
**1996-97 Report of Student Performance**  
**North Carolina Competency Standard**  
**Classes of 1998-2001**

**Background**

- State Board of Education policy requires students who entered the ninth grade in 1994-95 (Class of 1998) and beyond to meet a higher competency standard in the areas of reading and mathematics. Beginning with 1994-95 ninth graders, the new standard requires students to demonstrate grade level proficiency (Achievement Level III or above) on the eighth-grade reading and mathematics tests in order to receive a North Carolina high school diploma.
- The Class of 1998 completed grade 11 at the end of the 1996-97 school year. The class of 1998 is the first class required to meet the higher competency standard.

**Data Collection Methods**

- The data used to compile this report by LEAs represent a best-effort to reconstruct the information. In recent years student performance in meeting the North Carolina Competency Tests has been managed by the local school districts. State reporting of student performance on the North Carolina Competency Tests was reconvened in 1996.
- This report includes all students who have met the requirement by either passing the competency test or any of the approved screens. Screens for the competency test include the eighth grade end-of-grade tests, performance at the 50<sup>th</sup> percentile or greater on nationally-normed tests, the PSAT, and the SAT.
- The LEAs were provided a database form to use to summarize the competency data. Each LEA test coordinator and superintendent were required to sign the report before submitting the data to the Division of Accountability Services for analysis and reporting.

**Findings**

- Student passing is defined as Achievement Level III or IV on both the reading and mathematics tests, thereby meeting the competency standard. During the 1996-97 school year, 61.9 percent of eighth-grade students, 73.3 percent of ninth-grade students, 84.3 percent of tenth-grade students, and 90.3 percent of eleventh-grade students met the competency standard in reading and mathematics in North Carolina.
- There were wide disparities reported among subgroups. For example, for the eighth-grade screening, 40.1 percent of Black students met the standard while 72.9 percent of White students met the standard screening.
- LEAs reported using a variety of strategies to assist students in passing the competency requirement. A list of the commonly used strategies is provided in this report.

# **1996-97 Report of Student Performance**

## **North Carolina Competency Standard**

### **Introduction**

The 1996-97 North Carolina Report of Student Performance on the more rigorous North Carolina Competency Standard in Reading and Mathematics provides information on the state aggregate student performance and by LEA performance of students in the classes of 1998, 1999, 2000, and 2001 who have met the requirement. The data used to compile this report represent a best-effort by LEAs to reconstruct the information. These data are managed at the school and school district levels. LEAs were provided a database file to facilitate reporting of competency data. The data were reconstructed using a variety of strategies including analyzing electronically scored data files, reviewing student records, and reviewing class rosters generated during scoring. The LEA superintendent and test coordinator approved the data submitted from each LEA for this report.

The class of 1998 (last year's eleventh graders) is the first graduating class to be subjected to the new standard. The new requirement represents a more rigorous standard than the old minimum competency requirement implemented initially in 1978 for the class of 1981. The new standard implemented by the State Board of Education in 1995 requires that, effective with the class of 1998, to receive a North Carolina high school diploma a student must demonstrate mastery of grade-level competencies in reading and mathematics equivalent to grade 8 as described in the North Carolina *Standard Course of Study*. In order to demonstrate the requirement, a student must achieve performance equivalent to Achievement Level III or above beginning with the North Carolina End-of-Grade Tests in Reading and Mathematics administered at the end of grade 8. (A complete description of the four Achievement Levels for the North Carolina End-of-Grade Tests grades 3 through 8 is included in the Appendix of this report.)

Students who fail the initial screen beginning at grade 8 must be given at least one opportunity annually to take equivalent forms of the competency tests beginning at grade 10. Many school systems, however, elect to give students additional opportunities to retake the tests beginning as early as the summer after grade 8 and each year thereafter until the students pass the test(s). Students are required to retake only the tests they do not pass. According to legislation and State Board of Education policy any students who fail to pass the competency test(s) by the end of the tenth grade are given remedial instruction and additional opportunities to take the test(s) up to and including the last month of the twelfth grade. In addition, students who have failed to pass the competency tests by the end of the last school month of the year in which the student's class graduates may receive additional remedial instruction and continue to take the competency tests during regularly scheduled testing until the student reaches maximum school age (21).

The purpose of this document is to report the performance of students in the classes of 1998, 1999, 2000, and 2001 on the new, more rigorous competency standard.

# **1996-97 Report of Student Performance**

## **North Carolina Competency Standard**

### **Background**

- North Carolina General Statute 115C-174.11 mandates that the State Board of Education adopt tests or other measurement instruments which may be used to assure that graduates of the public high schools and graduates of non-public high schools supervised by the State Board of Education possess the skills and knowledge necessary to function independently and successfully in assuming the responsibilities of citizenship.

### **Graduation Proficiency Guidelines**

- At its February 1995 meeting, the State Board of Education approved Grade-Level Proficiency Guidelines and Graduation Proficiency Guidelines which include replacing the old, less stringent North Carolina Competency Tests with more rigorous standards in reading and mathematics as measured by North Carolina End-of-Grade (EOG) Tests.

### **The New Standard**

- Beginning with 1994-95 ninth graders, the new more rigorous standard requires students to demonstrate grade eight proficiency by performing at Achievement Level III or above on the reading and mathematics tests in order to receive a North Carolina high school diploma.

### **Competency Requirement Guidelines**

The new competency requirement guidelines also include the following:

- Establish Achievement Level III or above as the standard for Grades 3 through 8, and “grade level expectations” for grades K through 2, with required intervention/remediation for students not meeting the standard;
  - Require that the standardized transcript be issued at the end of each school year for ninth through twelfth graders; and,
  - Strengthen the recommendation concerning the use of End-of-Course test scores for final grades by stating that the *scores* should be used in grading students.

### **Regulations Governing the Competency Tests**

- Regulations concerning the competency requirement have not changed although the tests have been replaced effective with the class of 1998. With regard to the competency requirements, LEAs are legally required to:
  - Test students beginning no later than grade 10;
  - Offer remedial instructional opportunities to students not meeting the requirement;

**Regulations Governing  
the Competency Tests  
(continued)**

- Provide additional opportunities for students to retake the tests as needed at least one time per year; and
- Provide seniors with an additional opportunity to retake the tests during the last month of school.
- LEAs are not required to test ninth graders each year but may choose to do so in order to plan for different, enhanced programs of remedial instruction.
- The new competency requirement includes multiple-choice tests in the areas of reading and mathematics. The writing objective test required under the old competency standard is not a requirement under the new competency requirement. The open-ended assessment at grade 8 is not a part of the competency requirement.
- The new competency standard is required effective with those students who were in the ninth-grade during the 1994-95 school year or beyond. (Students who entered the ninth grade prior to the 1994-95 school year are required to meet the old competency standard regardless of when they complete the requirements for a North Carolina high school diploma.)
- The Achievement Level III or above standard requires a student to take the grade 8 end-of-grade tests in reading and mathematics or equivalent tests given as competency tests at the high school level.
  - The Achievement Level III performance on the EOG reading tests are scale scores at or above 156.
  - The Achievement Level III performance on the EOG mathematics tests are scale scores at or above 165.
- Students who do not achieve the above scores have not met the competency standard.
- LEAs may schedule as many as three test administrations each school year: once in the fall, once in the spring (must accommodate seniors), and once in the summer.
- LEAs may schedule up to four test administrations for seniors.
- Each student who has failed to meet the requirement must be given at least one opportunity each year (beginning in tenth grade) to retake the test(s) though LEAs may elect to give students an opportunity to retake the tests during each scheduled administration.

**Test Administrations  
(continued)**

- Modifications and accommodations are available for students with disabilities or students who are limited English proficient.
- Different equivalent forms of the tests are rotated for each of the scheduled test administrations.

**Screening on Other  
Measures to Permit  
Students to Satisfy the  
Competency Standard**

**Nationally-  
normed Tests**

- If a student has scores from the grade 8 EOG reading and mathematics tests, the scores must be used to determine whether the student has met the competency requirements. If for some reason a student does not have such scores, other screening(s) may occur. The screenings described below may be used.

- Scores from a standardized, nationally-normed test, normed on a sample representative of the public school population in 1992 or later may be used for competency screening. Scores from grade 8 or later are preferred. The cut scores for screening for these tests are:

- Reading: at or above the 50<sup>th</sup> national percentile.

- Mathematics: at or above the 50<sup>th</sup> national percentile.

**PSAT or SAT**

- The following PSAT or SAT scores may be used for competency screening:
  - Reading: at or above a verbal score of 40 on the PSAT, 400 on the SAT (48 and 480 on the recentered scale).
  - Mathematics: at or above a mathematics score of 45 on the PSAT and 450 on the SAT (48 and 480 on the recentered scale).

**Seventh Grade  
End-of-Grade  
Tests**

- In the event that EOG scores, scores from nationally-normed tests, and scores from the PSAT or SAT are not available, seventh grade EOG scores may, as a last resort, be used for screening purposes. Acceptable scores are the same as for grade 8:
  - Reading: at or above a scale score of 156.
  - Mathematics: at or above a scale score of 165.

**Resources Provided by  
NCDPI**

- The North Carolina Department of Public Instruction (NCDPI) has provided a *NC Competency Resource Guide* that provides information to educators working to provide remedial instruction to students who have failed the tests.
- Competency handbooks have been provided to LEAs for students to use to get an understanding of what the tests are like and to provide information about the requirement.

**Resources Provided by  
NCDPI  
(continued)**

- In addition, resources such as testlets, the item bank, flyers, and training on how to use the guidebook have been made available to LEAs.

**1996-97 Student  
Performance on the  
New Competency Tests**

- Passing the competency standard is defined as achieving Level III or IV on both the reading and mathematics tests or passing one or more of the approved screens. During the 1996-97 school year, 61.9 percent of eighth-grade students, 73.3 percent of ninth-grade students, 84.3 percent of tenth-grade students, and 90.3 percent of eleventh-grade students passed the competency requirement in reading and mathematics in North Carolina.

**State Results by  
Ethnicity for Eighth  
Grade**

- The eighth grade end-of-grade tests in reading and mathematics provide the first opportunity for students to meet the competency requirement. During the 1996-97 school year, 61.9 percent of eighth-grade students in North Carolina met the standard.
- Results by ethnicity for eighth graders varied widely with the White student subgroup having the highest percent of students passing and the Black student subgroup having the lowest percent of students passing. The percents passing for each subgroup were: 40.1 percent of Black students, 42.5 percent of Hispanic students, 45.7 percent of American Indian students, 51.0 percent of Other students, 63.1 percent of Multi-Racial, 64.1 percent of Asian, and 72.9 percent of White students.

**State Results by  
Ethnicity for Ninth  
Grade**

- Students who have not met the eighth grade proficiency or screen are required to take the North Carolina Competency Tests of Reading and the North Carolina Competency Tests of Mathematics as one requirement for a North Carolina high school diploma. Approximately 73.3 percent of the students passed the competency requirement by the end of the ninth grade. Results by ethnicity varied with Hispanic students having the lowest percent of students passing and Whites have the highest percent passing by the end of the ninth grade.
- Approximately 53.4 percent of Hispanic students, 54.7 percent of American Indians, 56.5 percent of Black students, 65.8 percent of Multi-Racial students, 67.7 percent of Other students, 72.5 percent of Asian students, and 82.5 percent of White students passed the competency requirement by the end of the ninth grade.

**State Results by  
Ethnicity for Tenth  
Grade**

- According to legislation, all students who have not achieved a passing score must be provided the opportunity to take the competency tests by tenth grade. During the 1996-97 school year, approximately 84.3 percent of the students passed the requirement by the end of the tenth grade.

**State Results by  
Ethnicity for Tenth  
Grade  
(continued)**

- When viewing the percent proficient by ethnic group, a disparity continues to exist among the subgroups. Only 65.7 percent of Other students passed the requirement while 90.3 percent of White students passed the requirement by the end of the tenth grade.
- The percents passing for each subgroup by the end of tenth grade were: 65.7 percent of Other students, 69.5 percent of Hispanic students, 72.4 percent of Black students, 73.6 percent of American Indian students, 79.6 percent of Multi-Racial students, 79.7 of Asian students, and 90.3 percent of White students.

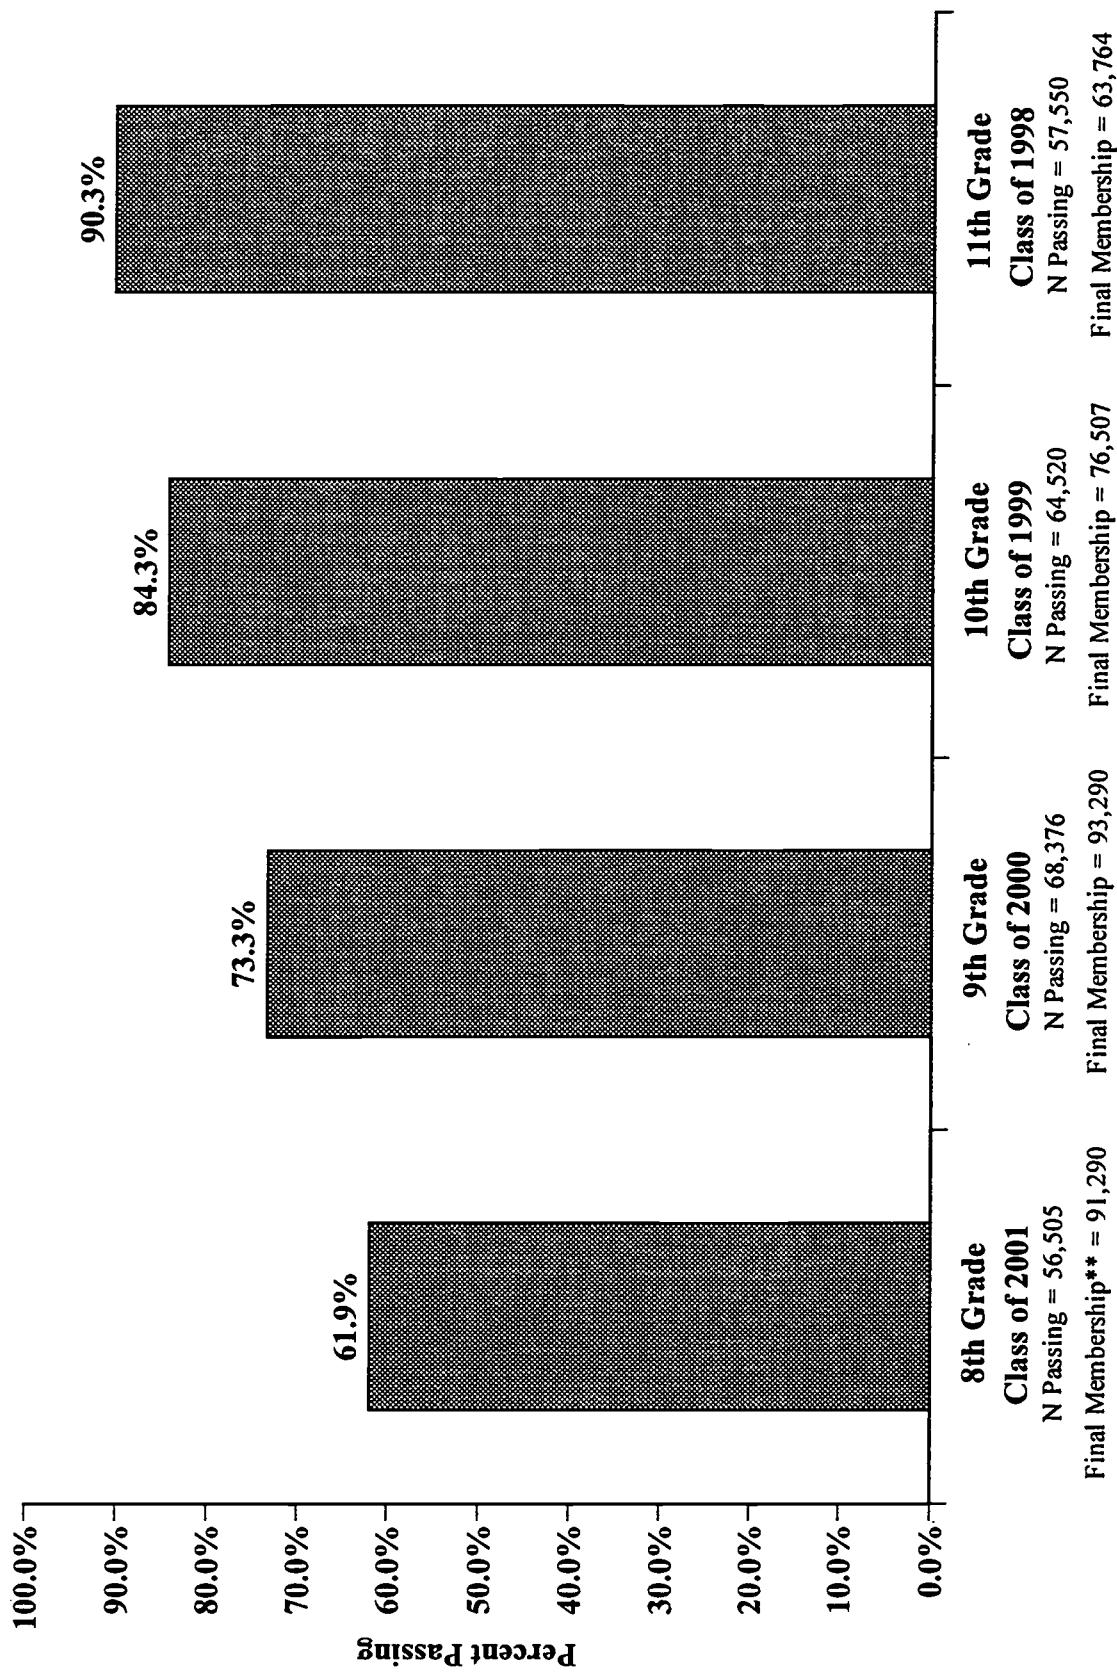

**State Results by  
Ethnicity for Eleventh  
Grade**

- For the 1996-97 school year, approximately 90.3 percent of students passed the competency tests in eleventh grade. From eighth grade to eleventh grade, the percents passing increased for all subgroups. However, the Multi-Racial and Other subgroups did not have a continual increase in the percent passing from year to year. In addition, the total number of students in membership statewide decreases significantly from 93,290 students at grade 9 in 1996-97 to 63,764 students at grade 11.
- The percents passing for each subgroup were: 66.1 percent of Multi-Racial students, 70.1 percent of Other students, 80.4 percent of Hispanic students, 82.4 percent of Black students, 83.6 percent of Asian students, 85.2 of American Indian students, and 93.9 percent of White students.

**Strategies Implemented  
by LEAs to Assist  
Students**

- LEAs reported using a variety of strategies to assist students in passing the competency tests requirement. A list of the commonly used strategies is provided in this report on page 24. The strategies have been provided according to the following categories:
  - Remediation Classes in Middle and High Schools
  - One-on-One Tutoring
  - Improve Test-Taking Skills
  - Identify Failures Early
  - Provide Support
  - Other

\*Students who have passed the new competency standard. Passing may include successful performance on grade 8 EOG test(s), competency test(s), or the competency screen(s).

\*\* LEAs were contacted and given an opportunity to reconcile the data. No reconciliation was provided by November 20, 1997. Data changes received from LEAs after November 20, 1997 are not included in this report.

# **Sample Questions for the North Carolina Competency Tests**

## V. Sample Test Questions

### North Carolina Competency Test of Reading and Mathematics

**Directions:** To answer a question, first decide which is the *best* answer choice for a particular question. Then, find the question number on your answer sheet and make a dark mark in the circle containing the letter of the correct answer. Remember to mark only one answer for each question.

**Mathematics Computation** Calculators are not allowed on this part of the test because it measures basic mathematical skills and estimation.

**Mathematics Applications** The use of a calculator is allowed on this part of the test because it measures problem solving. The use of a calculator tends to ensure that students who apply sound mathematical reasoning will not miss a question because of computational errors. You may use any four-function calculator with a square root function or algebraic logic or any scientific calculator on this part of the test. You cannot use a graphing calculator. You are also allowed to use a ruler and protractor. Commonly used formulas (shown below) will be provided on the back of your test book.

**Reading** This part of the test consists of 10 passages each of which is followed by three to eight questions related to the passage. You will be asked to read four literary passages (such as a short story, a poem, or an excerpt from a play); four content-based passages selected from art, science, health, mathematics and social studies; and two consumer/human interest passages (such as recipes, projects, relevant short pieces from popular magazines). The questions will ask about your strategy for reading the passage, how much you comprehended from the passage, and if you can critically analyze the passage.

### Formulas

The following information is for your reference in solving some of the problems on the test.

**Rectangular or Triangular Prism  
with base area ( $B$ ) and height ( $h$ )**

$$\text{Volume} = Bh$$

**Pyramid with base area ( $B$ ) and  
height ( $h$ )**

$$\text{Volume} = \frac{1}{3} Bh$$

$$\text{Total Area} = \text{Surface Area} + B$$

**Circle with radius ( $r$ )**

$$\text{Area} = \pi r^2$$

$$\text{Circumference} = 2\pi r$$

**Cone with radius ( $r$ ), height ( $h$ ), and  
slant height ( $l$ )**

$$\text{Volume} = \frac{1}{3} \pi r^2 h$$

$$\text{Lateral Area} = \pi r l$$

$$\text{Total Area} = \pi r^2 + \pi r l$$

**Cylinder with radius ( $r$ ) and height ( $h$ )**

$$\text{Volume} = \pi r^2 h$$

$$\text{Surface Area} = 2\pi r h + 2\pi r^2$$

$$\text{Use } \pi = 3.14 \text{ or } \frac{22}{7}$$

## Mathematics Computation

1. Solve:  $(2 + 1)^3 + (6 - 4)^2$   
A 13  
B 31  
C 39  
D 55
  
2. Bert bought a T-shirt that was reduced 25%. If the original price of the T-shirt was \$15, how much should Bert pay for the T-shirt including 6% sales tax?  
A \$3.98  
B \$11.85  
C \$11.93  
D \$13.10
  
3. Carrie bought a computer for \$789.99, a disc drive for \$219.95 and a printer for \$312.95. What is the *best* estimate of the amount she paid altogether?  
A \$1,200  
B \$1,300  
C \$1,450  
D \$1,600

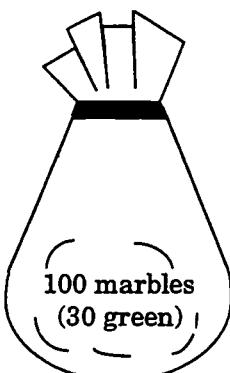

## Mathematics Applications

4. Sue's bedroom is 14 ft  $\times$  12 ft. The ceiling is 8 ft high. If a can of paint will cover 200 square feet, how many cans will be needed to paint the walls and the ceiling?  
A 2  
B 3  
C 6  
D 7
  
5. A photograph measures 1.3 cm wide and 2 cm long. An enlargement similar to the original photograph has a length of 5.4 cm. What is the width of the enlargement?  
A 8.31 cm  
B 3.51 cm  
C 2.08 cm  
D 0.48 cm

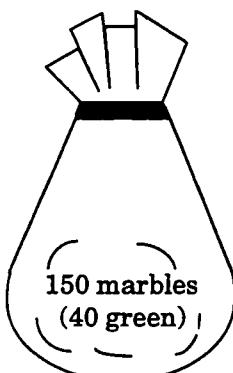

*Even if you use a calculator, you can do scratchwork on paper. It may help to draw a picture first before using the calculator.*

6. What is the probability of reaching into a bag without looking and pulling out a green marble?

BAG 1

BAG 2

- A greater for Bag 1 than Bag 2  
 B greater for Bag 2 than Bag 1  
 C the same for both bags  
 D cannot be determined from the information given
7. Pentagonal numbers follow this pattern:

Term	Number
1	5
2	12
3	22
4	35

What is the seventh pentagonal number?

- A 57  
 B 62  
 C 74  
 D 92

*Don't try to use your calculator on every question. Using your calculator too much can cost you time.*

8. One dose of Tasty Cough Syrup is  $2.5 \text{ cm}^3$ . What is the largest number of doses which can be given from a  $65.2 \text{ cm}^3$  bottle of Tasty Cough Syrup?

- A 24 doses  
 B 25 doses  
 C 26 doses  
 D 27 doses

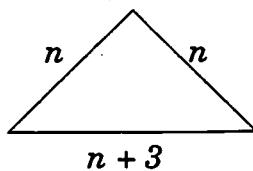

9. One way to earn money during the summer is to grow and sell vegetables. One person can easily take care of a vegetable bed that measures six feet by eight feet. If the bed needs to be six inches deep, how much topsoil will be needed to fill the bed?

- A 24.0 cubic feet  
 B 28.8 cubic feet  
 C 48.0 cubic feet  
 D 288 cubic feet

*Commonly used formulas are presented on the back of the test booklet.*

10. If the perimeter is 39, what are the lengths of the sides of the following isosceles triangle?

- A 12, 12, 15  
 B 13, 13, 13  
 C 11, 14, 14  
 D 9, 15, 15

# Ooka and the Stolen Smell

You have probably read a story about stolen money or jewelry, but have you ever read of a stolen smell? Read the following passage to learn how a student stole a smell and how he was punished for this crime.

Now it so happened in the days of old Yedo, as Tokyo was once called, that the storytellers told marvelous tales of the wit and wisdom of His Honorable Honor, Ooka Tadasuke.

This famous judge never refused to hear a complaint, even if it seemed strange or unreasonable. People sometimes came to his court with the most unusual cases, but Ooka always agreed to listen. And the strangest case of all was the famous Case of the Stolen Smell.

It all began when a poor student rented a room over a *tempura* shop—a shop where fried food could be bought. The student was a most likeable young man, but the shopkeeper was a miser who suspected everyone of trying to get the better of him. One day he heard the student talking with one of his friends.

"It is sad to be so poor that one can only afford to eat plain rice," the friend complained.

"Oh," said the student, "I have found a very satisfactory answer to the problem. I eat my rice each day while the shopkeeper downstairs fries his fish. The smell comes up, and my humble rice seems to have much more flavor. It is really the smell, you know, that makes things taste so good."

The shopkeeper was furious. To think that someone was enjoying the smell of his fish for nothing! "Thief!" he shouted. "I demand that you pay me for the smells you have stolen."

"A smell is a smell," the young man replied. "Anyone can smell what he wants to. I will pay you nothing!"

Scarlet with rage, the shopkeeper rushed to Ooka's court and charged the student with

theft. Of course, everyone laughed at him, for how could anyone steal a smell? Ooka would surely send the man about his business. But to everyone's astonishment, the judge agreed to hear the case.

"Every man is entitled to his hour in court," he explained. "If this man feels strongly enough about his smells to make a complaint, it is only right that I, as city magistrate, should hear the case." He frowned at the amused spectators.

Gravely, Ooka sat on the dais and heard the evidence. Then he delivered his verdict.

"The student is obviously guilty," he said severely. "Taking another person's property is theft, and I cannot see that a smell is different from any other property."

The shopkeeper was delighted, but the student was horrified. He was very poor, and he owed the shopkeeper for three months' smelling. He would surely be thrown into prison.

"How much money have you?" Ooka asked him.

"Only five *mon*, Honorable Honor," the boy replied. "I need that to pay my rent, or I will be thrown out into the street."

"Let me see the money," said the judge.

The judge listened to the pleasant clink of the money and said to the shopkeeper, "You have now been paid. If you have any other complaints in the future, please bring them to the court. It is our wish that all injustices be punished and all virtue rewarded."

"But, most Honorable Honor," the shopkeeper protested, "I did not get the money! The thief dropped it from one hand to the other. See! I have nothing." He held up his empty hands to show the judge.

Ooka stared at him gravely. "It is the court's judgment that the punishment should fit the crime. I have decided that the price of the *smell* of food shall be the *sound* of money. Justice has prevailed as usual in my court."

1. Why were people astonished and amused when Ooka decided to hear the shopkeeper's complaint?
- A They knew the student was too poor to pay.
  - B They thought that the idea of stolen smells was silly.
  - C They didn't like the shopkeeper.
  - D They knew that Ooka always avoided small cases.
2. The shopkeeper demonstrates that he is a miser by doing what?
- A cooking only fish every day
  - B refusing to pay the magistrate
  - C trying to charge the student for smelling his fish
  - D getting angry at the magistrate's verdict
3. If the story had ended when Ooka declared the student guilty, the moral of the story would have been which of the following?
- A Taking anything that belongs to someone else is stealing.
  - B There are big and little crimes.
  - C The punishment should fit the crime.
  - D Treat others the way you want to be treated.
4. What is the mood of this story at the end?
- A serious
  - B sad
  - C peaceful
  - D lighthearted
5. Which word **best** completes this character map?
- 
- ```

graph TD
    ?([?]) --- A([made the punishment fit the crime])
    ? --- B([listened to both sides])
    ? --- C([treated people with respect])
    ? --- D([Ooka])
  
```

- A honest
- B fair
- C friendly
- D helpful

*There is no deduction for guessing. If you can narrow the answer down to 2 choices, then you have a better chance of choosing the right one.*

## Answers to Sample Tests and Notes

### Mathematics Computation

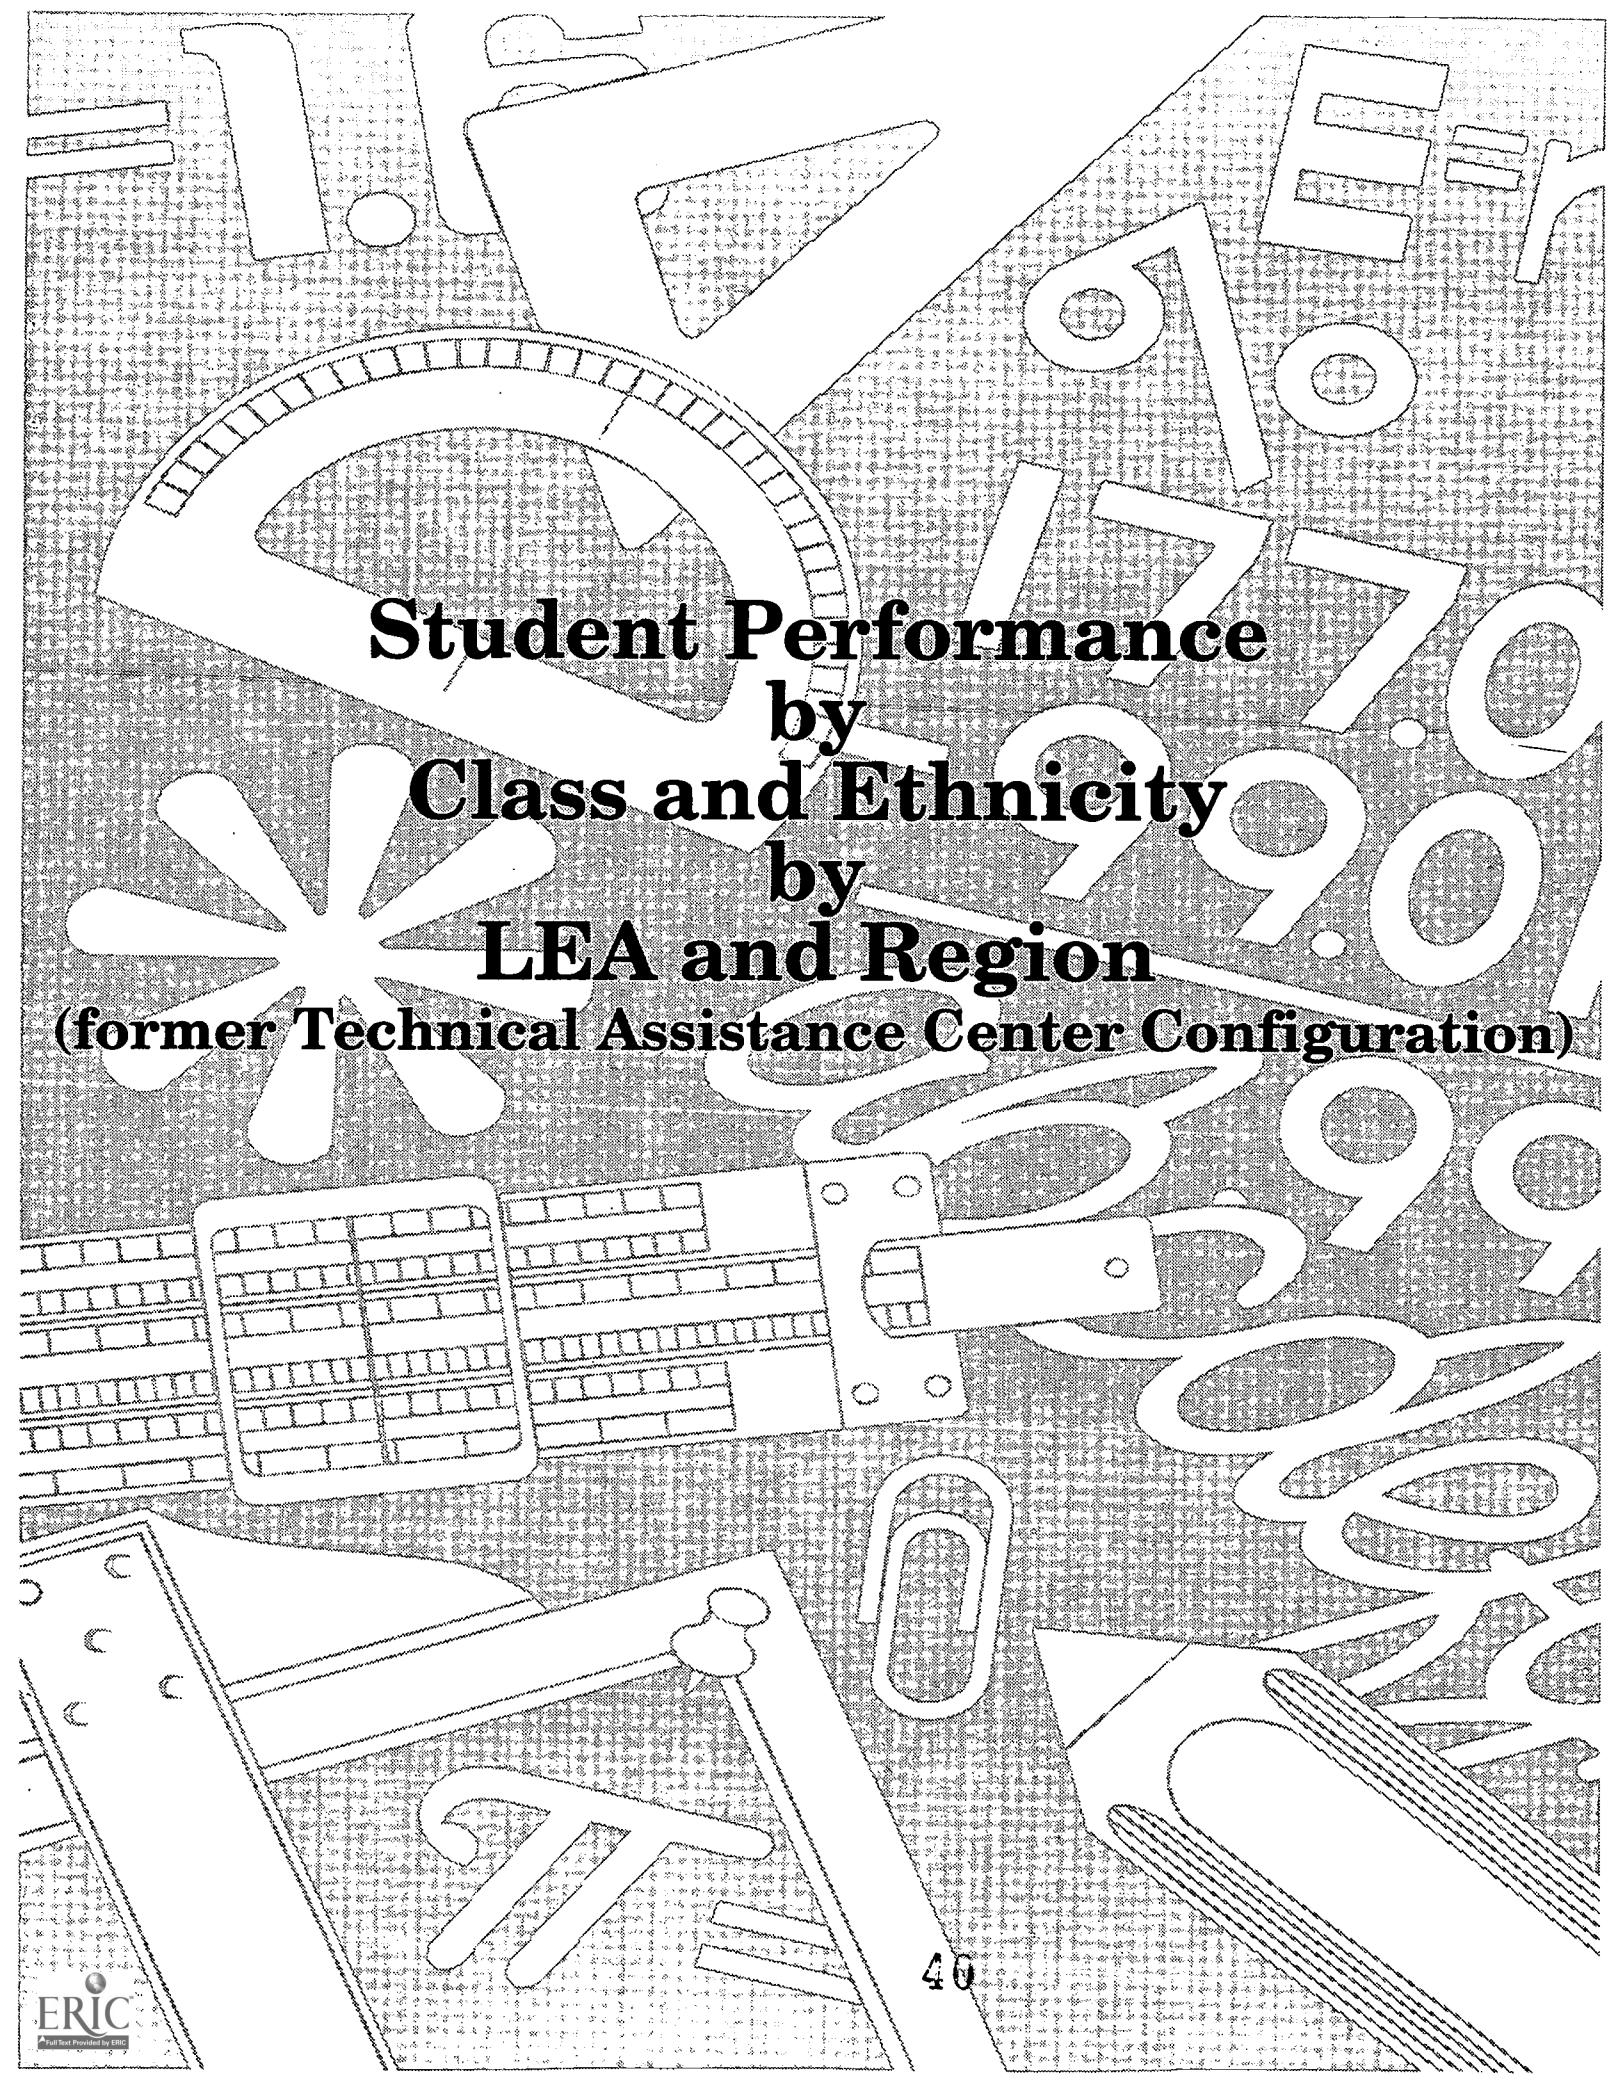

1. The correct answer is B. This item measures how well you can solve problems (including those with integers) using patterns and algebraic methods without a calculator.
2. The correct answer is C. This item measures your ability to select appropriate operations, strategies, and methods to solve a variety of application problems using real numbers without a calculator.
3. The correct answer is B. This item measures your ability to use appropriate estimation techniques in meaningful situations.
8. The correct answer is C. This item measures your ability to select appropriate operations, strategies, and methods to solve a variety of application problems using real numbers with a calculator.
9. The correct answer is A. This item measures your ability to find the volume of a prism. You may also be asked to find the surface area of a prism and the volume and surface area of pyramids, cylinders, and cones.
10. The correct answer is A. This item measures how well you can solve problems (including those with integers) using patterns and algebraic methods with a calculator.

### Mathematics Applications

4. The correct answer is B. This item measures your ability to find the surface area of a rectangular prism. You may also be asked to find the volume of a rectangular prism and the volume and surface area of pyramids, cylinders, and cones.
5. The correct answer is B. This item measures your ability to solve problems related to similar figures using indirect measures to determine missing sides.
6. The correct answer is A. This item measures your ability to find the probability of simple events using experiments. You may also be asked to find the probability of compound events using computer simulations, random number generators, and theoretical methods.
7. The correct answer is D. This item measures your ability to make and evaluate conjectures and arguments, using deductive and inductive reasoning.

### Reading

1. The correct answer is B. This item measures your ability to analyze, synthesize, and organize information and discover related ideas, concepts, or generalizations.
2. The correct answer is C. This item also measures your ability to analyze, synthesize, and organize information.
3. The correct answer is A. This item measures your ability to apply, extend, and expand on information and concepts.
4. The correct answer is D. Similar to questions 1 and 2, this item measures your ability to analyze, synthesize, and organize information, such as literary devices and techniques (mood, setting, simile, etc.).
5. The correct answer is B. This item also measures your ability to analyze, synthesize, and organize information. A character map is used to organize the information so that relationships can be easily understood.

\*Students who have passed the new competency standard. Passing may include successful performance on grade 8 EOG test(s), competency test(s), or the competency screen(s). Data were deleted where final membership was less than five.

## **Appendix**

## Achievement Levels

---

The North Carolina *Standard Course of Study* outlines the content standards for North Carolina in that it describes the knowledge, skills, and other understanding that schools should teach in order for students to attain high levels of competency in challenging subject matter. Educators in North Carolina felt that performance standards should also be developed which identify levels of competency expected in each content area. Unlike percentiles, which yield only relative comparisons, the performance standards give common meaning throughout the state as to what is expected at various levels of competence in each subject area. Performance standards, called Achievement Levels, are one way that scores on the North Carolina End-of-Grade Tests are reported. These categories are used to better describe the scores on the tests and are based on external evidence about the relative skill of students.

The achievement levels for the North Carolina End-of-Grade Tests are based on the contrasting groups method of standard setting. This method involves having students categorized into the various achievement levels by expert judges who are knowledgeable of the students' achievement in various domains assessed outside of the testing situation. Teachers are able to make informed judgments about students' achievement because the teachers have observed the breadth and depth of the work each student has accomplished during the school year.

During field testing (May 1992), teachers were asked to categorize each of their students on the basis of "absolute" achievement (comparison to an external standard). Each student was categorized into one of four achievement levels based on the teacher's experiences with the student throughout the school year.

- |           |                                                                                                                                                                                                                  |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Level I   | Students performing at this level do not have sufficient mastery of knowledge and skills in this subject area to be successful at the next grade level.                                                          |
| Level II  | Students performing at this level demonstrate inconsistent mastery of knowledge and skills that are fundamental in this subject area and that are minimally sufficient to be successful at the next grade level. |
| Level III | Students performing at this level consistently demonstrate mastery of grade level subject matter and skills and are well prepared for the next grade level.                                                      |
| Level IV  | Students performing at this level consistently perform in a superior manner clearly beyond that required to be proficient at grade level work.                                                                   |

*or*

Not a clear example of any of these achievement levels.

In all, the judgments of more than 5,000 teachers about the performance of more than 160,000 students were involved in the standard setting process statewide. More than 95% of the students field tested were categorized into one of the four achievement levels, with the remainder categorized as not a clear example of any of the achievement levels. The verbal descriptors "below basic," "basic," "proficient," and "advanced" were dropped after the field testing to avoid confusion with the NAEP achievement levels and to lessen the impact of labeling students, especially at the "below basic" level.

---

Excerpt from *North Carolina End-of-Grade Tests*, Technical Report #1. North Carolina Department of Public Instruction (August 1996). Material on Grade 3 Pretest updated April 1997.

The percentage of students in each achievement level were remarkably similar across subjects and grades. The percentages are presented in Table 1 below.

Table 1. Percent of students assigned to each achievement level by teachers (May 1992).

| Subject/Grade |     | Level I | Level II | Level III | Level IV |
|---------------|-----|---------|----------|-----------|----------|
| Reading       | PT3 | 11.7%   | 23.6%    | 39.4%     | 25.4%    |
|               | 3   | 14.3%   | 26.9%    | 37.8%     | 21.1%    |
|               | 4   | 12.5%   | 28.5%    | 39.6%     | 19.5%    |
|               | 5   | 10.7%   | 28.3%    | 40.1%     | 20.9%    |
|               | 6   | 11.1%   | 27.7%    | 41.2%     | 19.9%    |
|               | 7   | 11.1%   | 28.7%    | 38.3%     | 21.9%    |
|               | 8   | 9.0%    | 26.2%    | 41.2%     | 23.6%    |
| Mathematics   | PT3 | 7.2%    | 22.7%    | 41.7%     | 28.4%    |
|               | 3   | 12.0%   | 28.1%    | 40.6%     | 19.2%    |
|               | 4   | 10.3%   | 27.2%    | 42.8%     | 19.6%    |
|               | 5   | 13.0%   | 27.8%    | 40.8%     | 18.3%    |
|               | 6   | 12.1%   | 28.1%    | 40.4%     | 19.4%    |
|               | 7   | 12.4%   | 27.9%    | 39.8%     | 19.9%    |
|               | 8   | 11.2%   | 28.8%    | 40.4%     | 19.6%    |

The percentages of students shown in Table 1 for each subject and grade were used in conjunction with the frequency distributions of scores from the first administration of the North Carolina End-of-Grade Tests of Reading Comprehension and Mathematics administered in May 1993 to determine where the cut points should be for the achievement levels. Table 2 gives the range of scores associated with each achievement level.

Table 2. Range of scores associated with each achievement level for score reporting.

| Subject/Grade |     | Level I | Level II | Level III | Level IV |
|---------------|-----|---------|----------|-----------|----------|
| Reading       | PT3 | 119-127 | 128-132  | 133-144   | 145-162  |
|               | 3   | 115-130 | 131-140  | 141-150   | 151-172  |
|               | 4   | 119-134 | 135-144  | 145-155   | 156-174  |
|               | 5   | 124-138 | 139-148  | 149-158   | 159-178  |
|               | 6   | 128-140 | 141-151  | 152-161   | 162-180  |
|               | 7   | 130-144 | 145-154  | 155-163   | 164-183  |
|               | 8   | 132-144 | 145-155  | 156-165   | 166-184  |
| Mathematics   | PT3 | 105-117 | 118-125  | 126-134   | 135-154  |
|               | 3   | 98-124  | 125-137  | 138-149   | 150-171  |
|               | 4   | 111-131 | 132-142  | 143-155   | 156-178  |
|               | 5   | 117-140 | 141-149  | 150-160   | 161-185  |
|               | 6   | 130-145 | 146-154  | 155-167   | 168-193  |
|               | 7   | 138-151 | 152-160  | 161-172   | 173-201  |
|               | 8   | 140-154 | 155-164  | 165-177   | 178-206  |

## Instructions for Completing the 1996-97 North Carolina Competency Report

This document explains how to complete the 1996-97 North Carolina Competency Report for the revised (new) competency test. This report asks for final membership and number of students proficient in both reading and mathematics on the North Carolina Competency Test by ethnicity and by grade level. In addition, LEAs are asked to report on interventions and strategies implemented locally to assist students in passing the competency test. LEA data must be reported electronically using the Access 2.0 database provided. The Access database generates a report that LEA superintendents and test coordinators are required to sign and submit verifying the accuracy of the data reported. The North Carolina Competency Report is due from LEAs on or before August 15, 1997. If you have questions regarding the completion the report, contact Kris Kaase at Technical Outreach for Public Schools (TOPS) at (919)515-4638 or kris\_kaase@ncsu.edu.

### Step 1: Open the Access Database

The enclosed disk contains an Access 2.0 database file for reporting competency data. If you are using Access 7.0 you can still open this file and complete the report; however, do not convert the database to Access 7.0.

- Insert the **1996-97 North Carolina Competency Report** disk into A: drive of a computer that has Access 2.0 (or later) installed.

#### For Windows 3.1

- Open the database by opening File Manager.
- On the File menu select Run.
- When prompted for the file name type A:\comptnyc.mdb.
- Click on OK.

#### For Windows95

#### With Access 7.0

- Open the database by clicking on the Start button.
- On the Start menu select Run.
- When prompted for the file name type A:\comptnyc.mdb.
- Click on OK.
- You will be prompted with a window which states "You have selected a database created in a previous version of Microsoft Access. You can convert or open the database." Click on **Open Database** and then click on OK.
- You will then be prompted with a window which states "You can't make changes to database objects in the database 'COMPTNCY'." Click on OK. The database will open and you will be able to enter data.

## **Step 2: Enter the Competency Report Data**

- Select your LEA code by typing in the number or by using the pull-down menu.
- Enter the **final (9<sup>th</sup>-month) membership** for each ethnic group (American Indian, Asian, Black, Hispanic, Multi-racial, or Other) by grade level (8, 9, 10, or 11). **Final membership** is defined as the membership as of the last day of the 1996-97 school year. The final membership for each ethnic group must sum to equal the final membership by grade level for the LEA. Students whose ethnic group is unknown should be reported as Other.
- Enter the **number passing** for each ethnic group by grade level. **Number passing** is defined as the cumulative number of students who passed **both** the mathematics and reading portions of the competency test. The scale score for passing mathematics is 165 or higher; the scale score for passing reading is 156 or higher.
- Provide information regarding interventions and strategies implemented locally to assist students in passing the competency test. Click on the check box next to each intervention/strategy that has implemented. In the area labeled Program Description, provide a brief description of the intervention/strategy. If your LEA has more than one intervention/strategy in the category of Other, provide a brief description of each strategy in the Program Description under Other.
- Note that if all areas of the data entry form cannot be seen, use the vertical scroll bar to move to other areas of the form.

## **Step 3: Print the Competency Report**

After the final membership and number passing for each ethnic group and grade level has been entered and checked, the report can be previewed and printed. The report will calculate the percent passing for each ethnic group and the final membership, number passing, and percent passing for all students by grade level.

- Click on the **Save and View Report** button at the bottom of the data entry screen (you may have to use the vertical scroll bar to move the screen down to see the Save and View Report button). The screen will display a preview copy of the competency report to be signed by the LEA superintendent and test coordinator.
- To preview the report, click on the report to see the entire page or using the horizontal and vertical scroll bars to view areas of the report not on your screen.
- Click on the File menu at the top of the screen and select Print Setup.
- On the Print Setup window, make sure that Landscape and letter size paper are selected. Click OK to close Print Setup.
- Click on the Print button at the top of the screen or click on the File menu and select Print to print the report.
- To make changes to the data, click on the File menu at the top of the screen and select Close. To exit the database, click on the File menu at the top of the screen and select Exit. If changes need to be made to the report after exiting, open the database following the instructions in Step 1 above.

- Have the LEA test coordinator and LEA superintendent sign the report.

#### **Step 4: Return the Competency Report**

Before returning the competency report make a backup copy of the competency.mdb file and a copy of the signed competency report for LEA files.

- Return the electronic copy of the competency report on the disk provided and the signed copy of the competency report. Ship the disk and signed report in a secure package using a shipper that can track packages (e.g., UPS, Federal Express) to:
